Educate. Engage. Empower.

CONSTRUCTION ALERT

Pacific Coast Campus – Interim Portable Facility for the Multi-Disciplinary Academic Building Project (Bldgs. AA, BB, DD, & EE)

Starting November 4, 2009, construction will begin on the utilities for the future installation of the interim portable buildings for the MDAB Modernization project. The construction fence will be erected on 11/4/09 in Lot 2 immediately north of Building GG. Actual construction will begin once the fence is erected. The temporary construction fence will remain in place until the temporary portable buildings have been installed and ready for move in.

Additional parking is available in the newly constructed lots in the southeast corner of the campus at Walnut Avenue and PCH.

Watch for future construction impact notices as we move closer to the start of the MDAB Modernization project!

See the referenced diagram for work areas.

Please carefully observe all construction signage and stay clear of construction activity and do not enter barricaded areas. Passersby are especially cautioned of the presence of open, deep trenches throughout the construction period and the movement of large construction equipment in and out of the construction area.

We apologize for any inconvenience and we thank you for your cooperation.
